Peter's Point Loop Line

This unsigned FONSI and the attached EA (DOI-BLM-UT-G020-2011-0055-EA) for the Peter's Point Loop Line are available for public review and comment for 30 days beginning on December 16, 2011.

Based on the analysis of potential environmental impacts in the attached EA and consideration of the significance criteria in 40 CFR 1508.27, I have determined that with applicable mitigating measures, the Proposed Action (Alternative A) would not result in significant impacts on the human environment. An environmental impact statement (EIS) is not required.

The decision to approve or deny the above alternatives and if appropriate a signed FONSI with rationale, will be released after consideration of public comments and completion of the EA.
